(d) whether it is also a fact that all the programmes presently telecast by DDK are produced at Guwahati Programme Production Centre thereby depriving local artistes/ talents from their due share in programmes of DDK;

(e) by when the Government propose to start programme production on its own by DDK in full swing;

(f) the details of the programmes proposed to be produced at DDK and whether any of these programmes will also be in Hindi; and

(g) whether Government also propose to telecast regional news on its own prepared by DDK; if so, by when and if not, the reasons therefor?

THE MINISTER OF STATE OF THE MINISTRY OF INFORMATION AND BROADCASTING (SHRI K. P. SINGH DEO): (a) and (b) Whereas the Programme Production Centre (PPC) at Dibrugarh has been commissioned with effect from 31-5-93, the High Power TV Transmitter (HPT) installed on a 75-metre high tower has been providing service within a radial distance of 50 kilometres with effect from 07-02-1988, subject to availability of line-of-sight. The tower height had to be restricted to 75 metres as the proposed full height of 150 metres was not cleared by the National Airport Authority. In order to expand TV service in the area, a very Low Power TV Transmitter (VLPT) at Digboi is at an advanced stage of completion and is expected to be ready during the current year.

(c) to (e) DDK, Dibrugarh is regularly producing programmes on its own with effect from 31-5-1993. A statement containing list of important programmes produced and telecast/proposed to be produced is enclosed (*see* below). The local talent is also being utilised as per the requirement of DDK, Dibrugarh. The programme production activity at the Kendra wiil further increase once the full complement of the staff is in position.

(f) Whereas production of programmes in Hindi would depend upon the programme requirements of *the* Kendra, it proposes to produce programmes on various subjects like agriculture, children and women, music enrichment, special audiences and cultural activities etc.

(g) Owing to lack of infrastructural facilities, manpower and resources there is no such proposal at present.
